"Sec. 4. The business of the company shall be conducted on the plan of DISTRIBUTING TO THE POLICY-HOLDERS THE PROFITS OF THE BUSINESS, as hereinafter provided, unless by the consent of the assured the policy is non-participating."

"Sec. 15. This company may issue policies on the lives of husbands and parents, or others, for the benefit of wives and families, or other beneficiaries interested in their lives—as executors, administrators, creditors or debtors, and the same shall not be liable for the debts or contracts of the assured, except as provided in the policies issued."

"Sec. 16. The company may issue policies payable IN GOLD: Provided, Premiums are paid in the same."

"Sec. 10. The permanent investment of funds shall be in mortgages or liens on UN-ENCUMBERED REAL ESTATE WORTH DOUBLE THE AMOUNT LOANED."

We would also call attention to the rights secured in policy as part of the contract. Rights of party to re-insurance—paid up policy, and surrender value where "intervention of arms" or any other cause cuts the insured off from home office. This feature, omitted in policies of Northern companies, cost the Southern people very heavy loss in the late war, and should make them seek the only company that provides against such contingency in future. Some companies now have in their policies, that parties who "take up arms against" certain named States, "or the United States," render their policy null and void. This is making certain what was before uncertain, and is too great a mingling of politics, war and life insurance.

"THE PIEMONT AND ARLINGTON" has a model charter and model policy, plainly state rights of parties and guarding their rights against encroachment. It gives dividends at the end of the first year, when all cash is paid, and of second year, when part loan is taken. This all cash plan is unexcelled in every way most satisfactory.

We now confidently appeal to every one interested in Southern prosperity to look to their own interests, by sustaining their own institutions, and thereby establishing that self confidence without which there can be no permanent prosperity. Bear in mind that already over \$10,000,000 are annually sent North for Life Insurance, taking so much from our strength, and thereby giving additional power to our competitors.

We offer a solid, reliable Life Insurance Company, thoroughly Southern, in the hands of men of the highest integrity, with abundant assets, recent risks, the most secure of all investments, pledged to retain within the State of South Carolina all funds securing therein, and, indeed, presenting every advantage that can be desired; and we only ask a full examination into the superior merits of the "PIEDMONT AND ARLINGTON LIFE INSURANCE COMPANY" to insure your patronage.

The Company has complied with the law of the State, requiring a deposit of \$50,000 in State bonds, with the State Comptroller, for the better protection of policy holders.

SAWS.

CIRCULAR SAWS.
With Movable or Inserted Teeth.

WE CLAIM for our Patented Circular Saw the following advantages over all others:

The shanks of the teeth are elastic, and exert a uniform distention in the sockets. The stability of the plate is in no way affected by inserting new sets of teeth.

Each tooth, independently, may be adjusted to the cutting line.

No rivets, keys, or other objectionable appliances, are employed in connection with the teeth, which are as simple in construction, and as easily used, as a set of a bolt.

In short, all the difficulties heretofore experienced in the use of movable teeth for saws, are fully met and obviated by this invention.

Duty's Washing Machine,
Lately Much Improved—and the new

UNIVERSAL CLOTHES WRINGER
IMPROVED with Rowell's Patent Double Cog Wheel, and the Patent Stop, are now unquestionably far superior to any apparatus for washing clothes ever invented, and will save their cost twice a year, by saving labor and clothes.

Scullery people who have used them testify as follows:

"They save three-fourths of the labor and cost, and pay for themselves both in money and contentment. Let every young lady learn to use them, and every married one keep them in her house."—New Orleans Picayune.

"An excellent Washing Machine. We have tried it. The Clothes Wringer is very superior. A good hand will wash a large number of pieces in a few hours."—Raleigh (N.C.) Episcopist Messenger.

"The Machine is no humbug, but a necessity in every family."—Georgetown (N.C.) Kaledoscope.

"We would not part with it for any thing. It has compelled us to do without it."—Morganton (W. Va.) Constitution.

"We have one, and speak from observation. It works admirably. In one year it will pay for itself."—Cleveland (Tenn.) Banner.

"We have one of Duty's Clothes Washers, and our household are in great satisfaction. They are great economizers of time and labor."—Edgefield (S.C.) Advertiser.

"Far superior to any apparatus for washing clothes ever invented, and an indispensable institution in every family."—Marietta (Md.) Gazette.

"No one, after fairly testing their capacities, will be willing to do without them."—Fayetteville (Tenn.) Observer.

"We have one of these excellent Machines in use, and we cheerfully commend it for all that is claimed for it."—Rutherfordton (N.C.) Indicator.

"A child ten years old can do the washing just as well as a grown person. Every husband and father should have one for his family."—Morganton (W. Va.) Constitution.

"After over two years' experience with a Duty, we are assured that it is the greatest help and economizer of time, labor and money, we have yet had introduced in our household."—Williamson Smith, New Orleans.

PRICES—A Fair Offer.
If the Merchants in your place will not furnish, or send for the Machines, send us a retail price, Washer \$15, Extra Wringer \$10, and we will forward either or both machines, free of freight, to places where no one is selling; and so sure are we they will be liked, that we agree to refund the money if any one wishes to return the machine free of freight, after a month's trial, according to directions.

No husband, father or brother, should permit the drudgery of washing with the hands, fifty two days in the year, when it can be done better, more expeditiously, with less labor, and no injury to the garments, by a Duty Clothes Washer, and a Universal Wringer.

Sold by Dealers generally, to whom liberal discounts are made.

"One of my daily companions. My testimony to its erudition, the accuracy of its definitions, and to the vast etymological research by which it has been enriched, through the labors recently bestowed upon it, can hardly be of much value, sustained as the book is in world-wide reputation, by so general an approbation; but I have no hesitation in thus expressing my sense of its merit."—Rev. Notice.
COLUMBIA, S. C., January, 1870.

The Charlotte, Columbia and Augusta Railroad Company having been formed by the consolidation of the Charlotte and South Carolina and the Columbia and Augusta Railroad, and having executed a first and only mortgage on its entire property of 105 miles, including equipment, is now redeeming all the bonds formerly issued by said two companies, as an exchange of its first mortgage bonds, for an exchange of the new bonds issued, payable in January and July, and are amply secured by a mortgage on property which cost per mile more than three times the amount of bonds so issued.

The present price of the stock and the business of the road give ample guarantee of the security of the obligations for a permanent investment. Indeed, the opinion is freely expressed, that there is no safer bond issued by any party or corporation in the State, and they are cheerfully commended to capitalists as a safe investment.

For the purpose of funding the floating debt of the Company, \$50,000 of these bonds are offered for sale to the public, at the Treasurer's Office in Columbia.
